MUHAMMAD USMAN

Frontend Developer
Lahore, Punjab, Pakistan • m.usman.stack@gmail.com • +92 303 7777 438

Professional Summary

Results-driven Frontend Developer with 2+ years of experience specializing in React.js and modern UI frameworks. Proven track record in developing responsive, high-performance web applications with optimized user experiences. Skilled in state management (Redux), scalable architecture, and UI libraries (Material UI, Ant Design, React-Bootstrap). Experienced in form handling and validation using Formik and Yup, as well as integrating third-party services such as Email.js and Post Drop. Adept at collaborating in Agile/Scrum environments, delivering clean, maintainable code, and enhancing application efficiency and user engagement.

Technical Skills

- **Frontend Development:** React.js, Redux, JavaScript (ES6+),
- **Markup & Styling:** HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS
- **UI Libraries & Components:** Material UI, Ant Design, React-Bootstrap, React strap
- **State Management:** Redux
- **Form Handling & Validation:** Formik, Yup
- **Email Services:** Email.js, Post Drop
- **Version Control**: Git, GitHub
- **Core Competencies:** Responsive UI Design, Problem Solving, Adaptability, Team Collaboration, Performance Optimization

Professional Experience

Frontend Developer *2023 – 2025*
Argonteq Lahore, Pakistan

- Developed and maintained responsive web applications using React.js, Redux, and modern UI libraries.
- Designed and implemented user interfaces with Tailwind CSS, SCSS, Bootstrap, and Material UI for optimal performance and accessibility.
- Integrated third-party services such as Email.js and Post Drop to enhance application features and workflows.
- Implemented robust form handling and validation using Formik and Yup, improving user input accuracy and user experience.
- Collaborated with cross-functional teams in Agile/Scrum environments, ensuring timely delivery of scalable and high-quality applications.
- Utilized Git and GitHub for version control, ensuring smooth collaboration and streamlined development workflows.
- Contributed to performance optimization, reducing UI load times and enhancing overall application efficiency.

Key Projects:

eFile – Online Tax Filing Platform:

- Built a digital tax filing system inspired by HMRC (UK) using React, Redux, Tailwind CSS, Formik, and Yup.

- Implemented secure and efficient form handling, reducing input errors and improving submission accuracy.
- Delivered a seamless user interface optimized for responsiveness and performance

Catalyst – Cat Adoption & E-commerce Platform:

- Developed a React + Redux platform integrated with Shopify for cat adoption and food purchases.
- Designed responsive UI with SCSS and React strap, improving user engagement.
- Streamlined checkout and adoption workflows for better usability.

AmeerSync – Academic Support Platform:

- Developed a service platform with React and Tailwind CSS to support students with projects and assignments.
- Integrated Email.js for automated invoicing and communication.
- Implemented multi-theme support for customizable user experiences.

LandPricer – Real Estate Pricing Platform:

- Built a React + Redux application with SCSS and React strap for accurate land price estimation.
- Implemented an interactive chatbot to assist users with property-related queries.
- Enhanced user engagement with real-time responses and intuitive UI.

HealLink – Dental Clinic Management System:

- Engineered a React + Redux application with SCSS and React strap for managing appointments, staff, and patient records.
- Optimized workflows for clinic operations, improving efficiency and user experience.
- Ensured responsive design for desktop and mobile usage.

ParryScript – Pharmaceutical Web Application:

- Designed a React + Redux platform to connect medicine sellers and buyers with efficient data handling.
- Integrated Formik + Yup for reliable prescription validation and order accuracy.
- Improved transaction flow and user interface for healthcare operations.

Education

BS Computer science *2023 – Present*
Pir Mehr Ali Shah Arid Agriculture University Lahore, Pakistan
